DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claim 1 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification states that the write current increases/decreases in multiple steps. The specification does not specify that the steps need be greater than two, as defined multiple implies many, various, hence Suzuki fulfills the claim as originally disclosed before the addition of the new subject matter “greater than two steps”.
3. Claims 2 and 4-7 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not specify that the steps need be greater than two, as defined multiple implies many, various, hence Suzuki fulfills the claim as originally disclosed before the addition of the new subject matter “greater than two steps”.
4. Claims 11-12 and 14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which

Art Unit: 2651

was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not specify that the steps need be greater than two, as defined multiple implies many, various, hence Suzuki fulfills the claim as originally disclosed before the addition of the new subject matter "greater than two steps".

5. Claims 15-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not specify that the steps need be greater than two, as defined multiple implies many, various, hence Suzuki fulfills the claim as originally disclosed before the addition of the new subject matter "greater than two steps".

Response to Arguments

6. Applicant's arguments; see pages 6-9, filed 21 March 2005, with respect to claims 1-2, 4-7, 11-12 and 14-17 have been fully considered but they are not persuasive. Applicant's argument with regards to claims 1, 2, 11 and 15 are not persuasive and are moot in view that the applicant introduces new matter into the claims.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
